

## METALLOGRAPHIC MOUNTING MACHINE (HYDRAULIC TYPE)

**2HMP-22S**

**HMP-22S**

### FEATURE

- The automatic metallographic sample mounting machine is a multi-functional water-cooled mounting machine for mounting various samples.
- Inlay small and irregular workpieces.
- This machine adopts hydraulic control. The biggest feature is that the cylinder body adopts special process design, and the inlay process is completed in 5-6 minutes.

Model	HMP-22S	HMP-30S	HMP-45S
Sample pressing diameter	22mm	30mm	45mm
Net weight	45kg		
Preparation sample time	5-6 min		
Pressure	0-10 MPa		
Cooling method	Water		
Heating Power	2600W		
Power	AC 220V/110V, 50-60Hz		
Demension	435* 610*430mm		

Model	2HMP-22S	2HMP-30S	2HMP-45S
Sample pressing diameter	22mm	30mm	45mm
Net weight	85kg		
Preparation sample time	5-6 min		
Pressure	0-10 MPa		
Cooling method	Water		
Heating Power	2400W		
Power	AC 220V/110V, 50-60Hz		
Demension	677*490*500mm
