

DIGITAL GLASS THICKNESS METER

FEATURE

- Laser reflection, one-side measurement is available
- High accuracy, Fast measurement
- Practical, applicable to a wide range of materials
- Dual measurement mode

Model	IGL-201
Measurement Accuracy	$\pm (0.1\text{mm} + 1\%H)$, H is the standard value
Measurement Range	Glass thickness $\leq 70\text{mm}$, air layer thickness $\leq 45\text{mm}$
Weight	330g
Battery	4 AAA alkaline dry batteries
Display	240 * 160 dot matrix LCD
Test Slot Size	2mm * 38mm
Dimension	130mm×72mm×33mm (L*W*H)
Measurement Accuracy	$\pm (0.1\text{mm} + 1\%H)$, H is the standard value

Standard delivery	Qty
Digital Glass Thickness Meter	1
User Manual	1
Certificate	1
Battery	1
Cloth bag	1
AAA alkaline dry batteries	1
Packing box dimension 25*21*7 cm (L*W*H)	1
Calibration Report	1
