

MANUAL GRINDING AND POLISHING MACHINE

IGP-202A

IGP-201A

FEATURE

- IGP series stepless speed test grinding and polishing machine for single and double disc type machine, suitable for metallographic pre-grinding, grinding and polishing operation.
- The operation of the inverter, can be directly obtained speed from 50 to 1000 RPM, so as to make the machine more widespread application.
- It is an indispensable equipment in making metallographic specimen.

SPECIFICATIONS

Model	IGP-201A	IGP-202A
Operation Voltage	220V 50HZ	
Platen	203mm	
Rotation Speed	50-1000RPM (clockwise and counterclockwise)	
Input power	550W	
Dimension	500*910*475mm	710*680*330mm
Weight	36kg	40kg

Sand Paper

Polishing cloth

Polishing cloth
